Sponsorship Opportunities **2018**

Promotional Opportunities at the UK Annual Systems Engineering Conference

The Annual Systems Engineering Conference (ASEC) is INCOSE UK's flagship annual event and brings together a wide range of professionals from a variety of backgrounds, with the common interest of building upon their Systems Engineering (SE) knowledge and sharing ideas with their peers.

ASEC 2018 offers opportunities to promote your business to the INCOSE UK membership. Our events attract senior systems engineers from a broad range of industries, many of whom help to shape investment decisions within their organisations. You can display your company's products and services at an exhibition stand or raise your company's profile through one of the sponsorship options. The various options are described in detail below.

The theme for this year's ASEC is based around the Year of Engineering, a government-led initiative with the goal of making engineering more accessible to future generations. We want people to be inspired by what they are doing in their work, whether new to SE or holding many years' experience. Key themes include:

- **Where next for Systems Engineering?**
- **Growing the Systems Engineering workforce of the future**
- **The variety in Systems Engineering**

This year alongside this year's ASEC we will be running a STEM activity for 100 girls, due to 2018 being the Year of Women, as well as the Year of Engineering.

As usual at INCOSE UK events, there will be plenty of scope for examples of innovative Systems Engineering.
